

UPDATE ON TREE MATTERS

Prepared by Richard Fisher, Arboricultural Officer

1.0 Introduction

1.1 This report seeks to update Members on recent Tree Preservation Orders (TPO's) that have been served since 1st November 2017 – 30th April 2018, along with a summary on some of the other aspects of the work in relation to trees.

2.0 Summary of Work

2.1 Set out in table 1 is a breakdown of the numbers of the various types of applications or work types carried out during the period.

2.2 Members will be aware that tree work applications have to be responded to within 6 weeks in the case of a conservation area notification, and 8 weeks in the case of a TPO tree work application. If responses are not received within these timescales the work is deemed to be acceptable and can be carried out.

2.3 There is a requirement for planning applications to be responded to well within the 8 or 13 week time period, to ensure applications can be dealt with within the requisite time period. There is also a requirement to respond to discharge of conditions with a specified time period, to ensure development can commence.

2.4 Although not time specific, the serving of a new TPO is often a matter of urgency in order to prevent the trees being felled or inappropriate pruning taking place. Once served there are time limits for objections to be received, and responses to be sent and the matter placed before the Planning Committee. If this is not all completed within 6 months of the serving then the TPO will lapse.

2.5 In addition to this there have been a number of pre application site visits undertaken for both tree work applications and planning applications, as well as the general day to day tree related enquiries that have to be addressed during the course of the day.
