WASTE AND RELATED SERVICES CONTRACT START DATE VARIATION

Summary

The existing Waste and Related Services contract expires on 31 March 2021 and the Waste and Related Services Contract with Serco Ltd has a service commencement date of the 1 April 2021 for the Borough Council of King's Lynn & West Norfolk. It is operationally more effective to issue change Notices to revise these dates to 28th and 29th March 2021 respectively.

Recommendations

- 1) The Waste and Recycling Manager as the Authorised Officer of the Waste and Related Services Contract 2011 is authorised to issue a Change Notice under that contract bringing the end date forward to the 28th March 2021 on behalf of the council, and ;
- 2) The Waste and Recycling Manager as the Authorised Officer of the Waste and Related Services Contract 2020 in conjunction with the Supervising Officer is authorised to issue a Change Notice bringing forward the commencement of services for the Borough Council of King's Lynn and West Norfolk to the 29th March 2021.

Reason for Decision

To ensure a seamless waste and recycling service is maintained at the point of contractor change and that this happens over a weekend rather than during the middle of a working week.

Background

The existing and replacement waste and related services contracts are written in terms of whole years. The terms do not always provide best operational effectiveness at contract change. Change Notices are used with the consent of all parties to provide an operationally optimised handover date.

Timing of decisions must provide for the process of TUPE, where employees move from employment with one services provider to employment with the successor provider to be legally compliant and for new vehicles to be delivered and available and existing vehicles to be removed from site.

Options Considered

- 1) Use the contract dates as written for handover
- 2) Push back the handover to 4th/5th April 2021
- 3) Bring handover forward to 28th/29th March 2021

Policy Implications

The council will comply with its policy of providing a comprehensive service for waste and recycling whilst minimising disruption to householders more effectively by having a contract change at the weekend.

Financial Implications

The estimates for the revised contract date change are within budget

Personnel Implications

None.

Statutory Considerations

The council has a statutory duty to provide waste and related services. A well co-ordinated handover between service providers maximises the delivery of services.

Equality Impact Assessment (EIA)

(Pre screening report template attached)

None

Risk Management Implications

The change of contractors mid week is highly likely to cause disruption to services as vehicles need to be emptied and moved off site and new vehicles moved on to site over night along with system changes such as ICT and management. Two days in to the new service the Easter period commences with Good Friday.

The existing contractor leases vehicles used to deliver services and these leases expire on 31st March 2021. Extending leases or use of hire vehicles would be a financial risk which the service provider would expect to be passed over fully to the council.

Moving the contract change date forward provides the most optimised date operationally for the council and the two contractors with change operations being able to be concluded over a weekend. Both service providers are agreeable and have shown excellent co-operation.

Declarations of Interest / Dispensations Granted

None

Background Papers

(Definition : Unpublished work relied on to a material extent in preparing the report that disclose facts or matters on which the report or an important part of the report is based. A copy of all background papers must be supplied to Democratic Services with the report for publishing with the agenda)
