

**RECOMMENDATIONS TO CABINET 12 JANUARY 2016 FROM THE REGENERATION AND DEVELOPMENT PANEL MEETING HELD ON 6 JANUARY 2016**

**RD20: LYNNSPORT DEVELOPMENT**

The report proposed amendments to the current agreements and leases with Alive Leisure and Alive Management for future operation of the new tennis courts and multi-purpose synthetic pitch including the appointment of a Tennis Development Officer.

The Chairman thanked the Executive Director for his report and invited questions and comments from the Panel, as summarised below.

The Vice Chairman commended the proposals to bring Tennis facilities to King's Lynn. She asked if any thought had been given to include Cricket facilities. Councillor Mrs Watson commented that there was some good cricket clubs in the Borough which were very well subscribed. The Vice Chairman explained that she would like to see the sport made more available for young people who did not have transport or the funds available to join a Cricket club. The Executive Director agreed to pass her comments on to Alive Leisure and the Sports Development Unit.

Councillor Tyler explained that he was pleased that the new facilities would be available and provide opportunities for local people to become engaged in sport. He asked if the installation of the new facilities would be at the detriment to any existing facilities on the proposed site. The Executive Director confirmed that no facilities would be lost from the use of the space.

In response to a question from Councillor Baron Chenery of Horsbrugh, the Executive Director explained that a job advert for the position of Tennis Development Officer had been published before Christmas, but a poor response had been received. Further advertising of the job was now taking place through the Lawn Tennis Association and other relevant clubs and organisations.

Councillor Bubb asked if an indoor Tennis facility had been considered. The Executive Director explained that any such facility would need to be self-financing and this was something that could potentially be investigated in the future if the current proposals proved popular and generated a surplus.

The Portfolio Holder for Regeneration and Industrial Assets referred to the new Kingsway Pavilion and to improve the facilities for Cricket would be investigated.

The Portfolio Holder for ICT, Leisure and Public Space commented that he felt that this was a very good scheme and would be an added asset to Lynnsport.

**RESOLVED:** That the Regeneration and Development Panel support the recommendations to Cabinet as set out below:

Cabinet is recommended to:

- (i) Agree to incorporate the management of the new facilities at Lynnsport in the current arrangements with Alive Leisure and Alive Management.
- (ii) Agree the appointment of a three year Tennis Development Officer to maximise the use of the new courts.

**RD22: EXEMPT CABINET REPORT – PROPOSED SURGERY DEVELOPMENT – KING'S LYNN**

The Property Services Manager presented the report which contributed towards the savings required as part of the Cost Reduction Programme and assisted to diversify the Council's investment property portfolio whilst helping to facilitate and enhance the delivery of medical services within King's Lynn.

The Chairman thanked the Property Services Manager for his report and invited questions and comments from the Panel.

In response to a question from Councillor Tyler, the Property Services Manager explained that the NHS had taken the view that King's Lynn would be expanding and the population would grow. The proposed facility would provide a wider range of services and incorporate a wider catchment area.

Councillor Bambridge addressed the Panel under Standing Order 34. She referred to patients of St James surgery and felt that patients without transport may have problems accessing the new centre, especially as there was not a current bus route serving the area.

The Vice Chairman referred to the proposed site and the Property Services Manager explained that due diligence would be carried out and dealt with accordingly. Spend incurred would be reflected in the rate of return. The lease with the NHS would be on a 25 year basis and the Borough Council would retain the property asset.

The Portfolio Holder for Regeneration and Industrial Assets explained that this was primarily a commercial transaction but would also provide an improved health service. He explained that the Council would get a 6% return on their investment.

The Chairman commented that the Council had put lots of money into projects with the College, NWES and she felt that this proposal was lower risk than those undertaken previously.

The Chief Executive commented that this was a commercial transaction and the Council were not subsidising a private business. The lease would be with NHS England on a long term basis. Improved health benefits were a bonus.

The Portfolio Holder for Regeneration and Industrial Assets explained that the NHS would be obliged to look at bus routes and the impact of the surgery development.

Councillor Baron Chenery of Horsburgh commended the proposals as he felt that it would take some of the pressure off the Queen Elizabeth Hospital. The Property Services Manager commented that the proposals included a GP training facility.

Councillor Mrs Fraser queried whether the proposals would have an impact on neighbouring villages. She was concerned that village surgeries could be closed and moved into the town centre. The Portfolio Holder for Regeneration and Industrial Assets explained that this was out of the Council's control, but felt that the expanding population and growth anticipated for King's Lynn was the primary reason for the proposals.

**RESOLVED:** That the Regeneration and Development Panel support the recommendations to Cabinet as set out in the report.

**RD23: EXEMPT CABINET REPORT – NAR OUSE REGENERATION AREA – PROPOSED SALE OF LAND**

The Property Services Manager presented the report which set out the provisionally agreed terms for the proposed disposal of a parcel of land at NORA, and authority was sought from Cabinet to progress the disposal through to completion.

The Chairman thanked the Property Services Manager for his report and invited questions and comments from the Panel.

In response to a question from Councillor Tyler, the Property Services Manager confirmed that he was unaware of any archaeological importance on the site.

**RESOLVED:** That the Regeneration and Development Panel supported the recommendations to Cabinet as set out in the report.

#### **RD24: EXEMPT CABINET REPORT – KING’S LYNN ACQUISITION – BOAL QUAY AND THE FRIARS**

The Property Services Manager presented the report which set out the provisionally agreed terms for the proposed acquisition of parcels of land at Boal Quay/The Friars, and authority was sought from Cabinet to progress the acquisition through to completion.

The Chairman thanked the Property Services Manager for his report and invited questions and comments from the Panel.

The Panel discussed the proposed land to be acquired and other parcels of land in the vicinity. The Panel requested to be kept updated on progress with the acquisition of additional land on the site and any other issues which arose.

The Portfolio Holder for Regeneration and Industrial Assets felt that it was right to proceed with acquiring the land which was available which would assist the Council in moving forward with potential development of the site in the future. He confirmed that any future land acquisitions would be subject to an additional Cabinet report.

**RESOLVED:** That the Regeneration and Development Panel supported the recommendations to Cabinet as set out in the report.

#### **RD25: EXEMPT CABINET REPORT – KING’S LYNN LAND ACQUISITION – WISBECH ROAD**

The Property Services Manager presented the report which set out outline terms for the proposed acquisition of a parcel of land at the southern end of the Waterfront Regeneration Area, and authority was sought from Cabinet to progress the acquisition through to completion, subject to agreeing acceptable terms in consultation with the relevant Portfolio Holder.

The Chairman thanked the Property Services Manager for his report and invited questions and comments from the Panel.

In response to a question from Councillor Whitby, the Property Services Manager confirmed that access to the site was available.

The Portfolio Holder for Regeneration and Industrial Assets explained that the acquisition would have no effect on Hardings Pits. The acquisition of the site would improve the marriage value of the land and the assembly of development land in the area. It joined up with land already under the Council’s ownership.

The Property Services Manager confirmed that at this stage the proposals were to acquire the land, any development proposals would be subject to Cabinet consideration in the future.

In response to a question from Councillor Tyler, the Property Services Manager explained that any flood risk issues would form part of the planning application if and when development was to take place on the site.

**RESOLVED:** That the Regeneration and Development Panel supported the recommendations to Cabinet as set out in the report.
