

Licensing Sub Committee Hearing – 21st July 2021 – 100 Acres, Cowles Drove, Hockwold cum Wilton
Applicant's request to change one of the Licensing Conditions

Further to the email Marie copied you into I need to request a change to one of the licensing conditions that has already been spoken about please.

The condition in question is:

"Steward and traffic management must be present along Cowles Drove and Station Road between the hours of 10am and 10pm Thursday to Sunday to assist with the flow of traffic"

This condition was agreed rather early in the consultation process and I have since spoken to Jack Askew of Norfolk Police who has advised that it would not be safe to place marshals on Station Road as it is a national speed limit road.

I can suggest some different wording to amend the condition if that is appropriate? We would actually be looking to extend the traffic management beyond the originally agreed times. Could I perhaps suggest something along these lines:

CSAS accredited traffic management staff must be present along Cowles Drove between 10am and 10pm Thursday to Sunday and from 9am to 2pm on Monday to assist with the flow of traffic.

I appreciate from what Marie has told me that this cannot be changed without passing before the members now, but would be very grateful if they could consider accepting the change as the original condition is not achievable safely - I can only apologise for my own ignorance when I discussed the matter with Marie.

Many thanks
Rachel
