

APPENDIX 1: Schedule of Additional Modifications to Local Plan Review

Borough Council of
**King's Lynn &
West Norfolk**

**Borough Council of King's Lynn and West
Norfolk**

Regulation 22:

**Schedule of Additional Modifications to Local
Plan Review arising from Regulation 19
consultation (August – September 2021) and
officer updates**

February 2022

Schedule of Additional Modifications to the Local Plan Review

Once the Local Plan is submitted for Examination, the local planning authority will need to keep a record of changes to the Plan that are being sought. Such changes fall into two categories:

- Additional Modifications (AMs) – Minor changes; and
- Main Modifications (MMs) – Material changes to the Local Plan that require further statutory consultation under Regulation 19 (Town and Country Planning (Local Planning) (England) Regulations 2012¹)

AMs are those changes that will not be considered further by the Inspector, as they do not represent any material change to the direction of the Plan. Predominantly AMs consist of the following:

- Grammatical or formatting corrections;
- Corrections to cross references;
- Factual corrections or updates.

Several representations have been received that have identified minor corrections that need to be made to the Local Plan Review. Where applicable, these are referenced in the table below, or if AMs are officer corrections (e.g. Neighbourhood Plan updates). As far as possible, AMs have incorporated minor grammatical changes, although it cannot be guaranteed that no further AMs will be required as/ when the schedule of Main Modifications (MMs) is developed (post-submission).

The schedule of AMs (below) consists of:

- Minor (non-material) changes to the Local Plan identified in Regulation 19 representations;
- Cross referencing corrections/ updates; e.g. re July 2021 National Planning Policy Framework (NPPF) update;
- Factual updates; e.g. most recent information regarding Neighbourhood Plans.

The schedule does not include the following, unless these have been identified as part of more substantial AMs, but will be made as/ when necessary:

- Grammatical corrections;
- Further (post submission) factual updates;
- Minor wording changes to supporting text; e.g. to ensure consistency, or changes arising from more substantive changes/ Main Modifications;
- Minor changes to policy text; e.g. in the interests of clarity, readability and consistency;
- Policy/ Figure/ Table numbering, cross referencing and headings.

				<p>6.11.4 When development is proposed in, or nearby to areas of flood risk, opportunities should be taken to reduce the existing risk of flooding. Further guidance is set out in the Borough Council’s flood risk information web pages¹⁰. Development proposals should promote flood risk reduction, enabling opportunities identified in the SFRA. This may include reducing surface water discharge rates and volumes, providing increased flood storage or conveyance capacity, setting aside green space that could be used for water storage in future, or integrating or retrofitting surface water measures to replace and/or augment existing drainage infrastructure.</p> <p>6.11.5 The development must not increase the risk of flooding within the development site or in the surrounding area. It will need to be demonstrated that development will be resistant and resilient to flooding for its lifetime. An assessment of access and egress is also needed. In relation to the consideration of the impact of climate change the allowances considered must be in accordance with the latest national guidance. This will normally be achieved through submission of a Flood Risk Assessment in line with policy LP25 (below) in support of a planning application.</p>
AM16	19/ 20/ 389 – Water Management Alliance	6.11 LP25 - Sites in Areas of Flood Risk Policy	Section 6.11 – updates re latest flood risk and water resource management guidance and strategies; role of statutory bodies (e.g. Internal Drainage Boards)	<p>New paragraph to follow 6.11.6:</p> <p>6.11.7 IDBs advise that within the relevant Internal Drainage District (IDD), surface water discharges should be managed in accordance with current adopted technical standards (e.g. 2015 DEFRA sustainable drainage systems guidance) and IDB bylaws. This is necessary to ensure that development fulfils the requirements of NPPF para 163.</p>

				2022 and in due course will replace the Borough Council's own Habitats Monitoring and Mitigation Fund. This study will form part of the evidence base for each of the authorities' Local Plans and provides the basis for future agreements through the NSPF and potential Norfolk wide mitigation charges.
AM19	Officer update	7.3 LP29- Housing for the Elderly and Specialist Care	Paragraph 7.3.4 – Update to reflect recent publication of latest Study of demand for specialist retirement housing and accessible housing (November 2021)	Proposed amendments to paragraph 6.13.7, as follows: <i>7.3.4 The Borough Council takes this responsibility seriously and to support the Local Plan review with up to-date and proportionate evidence has commissioned and published both a Housing Needs Assessment (HNA) (Simon Drummond-Hay, 2020) to supersede the 2014 Strategic Housing Market Assessment (SHMA) and in collaboration through the Norfolk Strategic Planning Framework (NSPF) with the other Norfolk planning authorities a Demand for Specialist Older Persons Housing and Dementia Care Housing Study an updated Study of demand for specialist retirement housing and accessible housing for older people and related planning and viability issues (Three Dragons, 2020 November 2021).</i>
AM20	446 – RSPB	9 King's Lynn & Surrounding Area	Paragraph 9.1.14.2 – References to recreational pressure/ trespassing in proximity to particular SSSI sites	Proposed amendments to paragraph 9.1.14.2, as follows: <i>9.1.14.2 The GI Strategy identifies the need for GI to be included within the urban expansion areas; to protect the GI assets that currently exist in these areas and to configure new GI provision to create a coherent network. The scale of development in the Riverfront area requires GI linkages and provision to be considered. The Bawsey/ Leziate Countryside and Recreation Zone (identified in the GI Strategy) offers the opportunity to provide access to an area of countryside and former mineral workings close to the eastern edge of the urban area of King's Lynn. The Leziate, Sugar and Derby Fens SSSI sites are home to important and diverse plant communities and these sites are particularly sensitive to recreational pressures or trespassing, so effective GI planning may alleviate these pressures. There may be future opportunities to enhance or extend the green infrastructure provision in the vicinity of the Gaywood Valley and</i>

				<ul style="list-style-type: none"> • <i>dam boards or flood doors;</i> • <i>construction methods, including Non-Return Valves (NRVs) to sewers, airbrick guards, raising electric points, solid floors.</i> <p><i>[Other proposed amendments to Appendix B put forward through the representations are considered to be Main Modifications and as such would need to be subject to examination by the Planning Inspector]</i></p>
AM42	450 – RSPB	H Sustainability & Climate Change Statement	Paragraph H.0.1 – update cross referencing; e.g. 2021 Environment Act	<p>Proposed amendments to paragraph H.0.1, as follows:</p> <p><i>H.0.1 Many areas around the UK have been addressing ways to contribute to the importance of all new development being measured against sustainability dimensions. Ways this has been addressed has been through sustainability and climate change statements, where development at the application stage must demonstrate and promote through a series of key questions how the proposal will impact the environment positively and potentially negatively. Legal obligations are already in force to tackle climate change and, most recently, under the 2021 Environment Act (passed into law, November 2021¹⁷). The Environment Act will implement the Government’s 25-year Environment Plan, introducing a statutory requirement to deliver biodiversity net gain. Partnerships such as the Nature Recovery Network as important policy and mechanisms to enhance biodiversity as part of the sustainable planning process.</i></p>
