## Appendix A

## **Budget Monitoring Variances September 2023**

Following changes to reporting tools in the current year, budget monitoring reviews are better able to focus attention on both prior year actuals and current year to date actuals. This has resulted in challenge to the level of budgets in current and future years leading to budgets being reduced or removed, which then better reflects both current spending and income needs.

Amounts in (brackets) are favourable and others are adverse movements.

Movements	Movements previously reported	Movements this period	Cumulative Movements to date £	Impact on Financial Planning
Central Services – deficit £64,890		~	~	- running
Corporate Communications - Cabinet Report approved additional budget for expertise /advice August 2021 omitted from budget estimates	35,000			Yes
