The Regeneration Programmes Manager and officers from Norfolk County Council presented the Panel with information on the Local Cycling and Walking Infrastructure Plan. A copy of their presentation is attached.

The Chair thanked the officers for the information and invited questions and comments from the Panel, as summarised below.

In response to questions from Councillor de Whalley, Matt Haywood outlined the opportunities for cycling and walking for commuter journeys. He also explained that design guides would be used which could include segregations, traffic calming and priority crossings as necessary. Each route would be looked at to see what infrastructure was possible and what met the standards.

It was also explained that the plan was currently being finalised and that further consultation could be held on the details of specific schemes within the plan, as appropriate. It was hoped that the plan would be finalised by the end of the financial year.

In response to a question from Councillor Bambridge, it was explained that the specific detail on infrastructure for areas would come later once the overall plan had been finalised.

Councillor Rust addressed the Panel under Standing Order 34. She made comments that workplaces did not always have adequate changing facilities for those who wanted to walk or cycle to work. She also referred to lighting along routes and Matt Haywood explained that lighting would be looked at as part of the plan.

Councillor Morley asked when the next level of detail would be available, including costs. Matt Haywood explained that future work would set out indicative costs and cost benefits. He also explained that the plan would be used in order to make the most of any potential future funding opportunities.

Councillor Holmes addressed the Panel under Standing Order 34. He raised concern that the plan was very King's Lynn centric.

Councillor Ryves addressed the Panel under Standing Order 34. He asked what would be considered as part of the cost benefit analysis and Matt Haywood provided detail of the aspects that would be considered as part of the appraisal.

The Chair, Councillor Collingham raised concern that funding was not guaranteed, but acknowledged that it was important to have the plan developed in readiness for future funding opportunities. Matt Haywood explained that it was unknown what funds would be available from Government in the future and if the bid process would be competitive, however plans were encouraged by the Department for Transport in readiness for future funding opportunities.

RESOLVED: The update was noted and the Panel requested to be kept up to date when further detail was available.

RD173: **CIL GOVERNANCE MONITORING UPDATE**

[Click here to view the recording of this item.](#)

The Planning Policy Manager presented the update.

The Chair thanked the Planning Policy Manager for the update and invited questions and comments from the Panel, as summarised below.

Councillor Parish, Chair of the CIL Governance Task Group addressed the Panel and raised concerns that although the model for delivering CIL was in place, it had not yet been launched because of advice, which was awaited, on how monitoring would take place.

Councillor Blunt, Portfolio Holder for Development, explained that he would chase the issue up, request advice on the establishment monitoring panel and look to launch the scheme as soon as possible.

Councillor Bone suggested that Members of the CIL Task Group should be involved in the Monitoring Panel.

Councillor Manning commented that it was important to get the system launched so that Parishes could benefit from funds.

Councillor Spikings commented that it could be frustrating to landowners and developers who had paid CIL and Parishes had been unable to utilise the funds. She hoped that the system would launch as soon as possible.

Councillor de Whalley commented that it was important to engage with Parishes so that they were aware of the opportunities available to them.

Councillor Blunt explained that he would take the comments from the Panel forward and work to obtain the relevant advice on the establishment of the Monitoring Panel to get the scheme launched as all the work to enable the scheme to be launched had been completed and agreed by Cabinet.

RESOLVED: Councillor Blunt, on behalf of the Panel, to ensure that the CIL system was launched as soon as possible and the Monitoring Panel was established, to enable the scheme to deliver CIL to commence and report back to the Panel as necessary.

CREATION OF CIL SPENDING PANEL

Summary

The purpose of this report is to give effect to and implement the Cabinet decision CAB152 of 19 August 2020 which approved the Terms of Reference for a CIL Spending Panel.

Recommendation

1. That a Sub-Committee of Cabinet be created which shall be the CIL Spending Panel;
2. That the updated Terms of Reference at Appendix A are approved and are to be adopted for the CIL Spending Panel.

Reason for Decision

To create a body which shall operate as the CIL Spending Panel and refresh the Terms of Reference to reflect its constitution.

1 Background

On 19 August 2020 Cabinet agreed and adopted the CIL Spending and Governance Processes document which proposed a scheme for allocating funds collected through the Community Infrastructure Levy.

This scheme envisages a Panel of elected Members to be known as the 'CIL Spending Panel' which is to have decision making powers in respect of a

defined category of applications for CIL funding and is to make recommendations in respect of other categories.

In order to create a decision-making body, it is recommended that this be achieved by virtue of a sub-committee of Cabinet which can delegate its powers to its sub-committee.

2 Options Considered

The creation of a free standing Panel was considered, however this would remove it from direct Cabinet oversight, in circumstances where Cabinet is to retain partial decision making powers in relation to the operation of the CIL Spending and Governance Process. Delegating part of its decision making powers to a sub-committee is consequently considered to present a more cohesive approach to delivering the CIL spending scheme.
