Risk Register Summary (full version contained in appendix 1)

Timetable – confirmation of funding delays key project milestones and ultimately launch date	Continue to pursue funding plan. BCKLWN to underwrite NLHF funds in the event of unsuccessful bid
Construction market fluctuations / inflation / materials supply and resources leading to increase in costs of construction materials and labour before project commences	Professional Quantity Surveyor (QS) appointed – 20% risk allowance and 12% inflation projected for construction period - but inflation and construction market remains volatile in terms of pricing / material supply and resources
Cost overruns / unforeseen costs during the construction phase	QS to work closely with the design team on proactive monitoring during the construction phase
Staff resources - pressures on project team in respect of balancing workloads / loss of key staff / recruitment of Senior Project Manager	Continue to review project team workloads. Recruitment of Senior Project Manager ongoing with potential to recruit imminent
Continued political support and support of stakeholders and wider public	Continue to engage with members, stakeholders and wider public in accordance with communications plan
Relocation of existing occupants of site where appropriate (formal leases / tenancy at will / simple licences) might be delayed and impact on business plan	Early engagement with all occupiers of the site has commenced - this has to be maintained and managed - particularly in respect of areas critical to business plan and commercial leases
Failure to achieve business plan projections	Continually review and monitor performance against business plan - adjust activity and pricing policies if required - adequate marketing budget identified and target audiences
Lack of demand for Shakespeare Experience Tour	Develop compelling content of interpretation tour at earliest stage. Develop marketing partnership with NT. Identify proven expertise for establishing heritage visitor attraction market positioning
Insufficient cashflow and lack of access to liquid funds for CIO operator	Adopt robust cash planning capability and monitor closely. BCKLWN provide back-up financing facility to address short-term cash requirements
