

Cabinet – 7 March 2023

Cabinet noted the referral from KLACC of a request to support a shovel ready scheme for the provision of accessible play equipment in the Walks should an opportunity for funding become available. The Chair confirmed that the suggestion was business which was conducted regularly, and that Cabinet would encourage officers to assist the West Norfolk Youth Advisory Board in the preparation of a scheme to put forward for a request for funding to an appropriate scheme. Councillor Humphrey confirmed he had watched the meeting and was impressed with the presentation and asked if there were any grants available that the young people could apply for. It was confirmed that officers would look at the scheme and funding opportunities in order for a bid to be made. Under standing order 34 Councillor Kemp commended the work of the West Norfolk Youth Advisory Board.
